Ingredient Dispenser

DRY INGREDIENT DISPENSER

Throw out the jars, the bowls and the packets on the bench! Now from Wilson the Australian leader in water heating systems - comes a range of dispensers that will make you wonder how you got on without one.

The Wilson dispensers contain and dispense everything you need to enjoy a quick cuppa in one convenient unit that consigns the mess on the lunch room bench to history.

When you combine a dispenser with a Wilson boiling water unit, it's good riddance to dirty spoons, coffee, tea and sugar containers, kettles and urns - the lot! This is the combination your lunch room or site office has been crying out for.

- Durable Components
- Easy Connection & maintenance
- Suitable for a wide range of applications
- Economical system
